## Integra helps Tony fly

Tony's learning difficulties prevented him from making himself understood or to control his behaviour. He was disruptive, frustrated and limited him. He once had his face smashed. When...

Other people with autism have average to above intelligence, people with autism have problems with reading, writing, as well as memory, attention and relationships. Without treatment, people with autism can be devastating. They suffer from anxiety, depression, behaviour problems, stigma and bullying.

Integra offers specialized care for individuals and families, a residential...
